When do I need this report?

Traditionally solicitors have carried out two types of enquiries to find out about planning issues:

- A local authority search, which provides information that is generally limited to the extent of the subject property
- A Property Information Form, which relies on the knowledge of the seller

The Landmark Planning report is designed to supplement the findings of the local authority search by also looking at development activity in the wider area.

Designed specifically for residential buyers and their solicitors, the Landmark Planning report will provide key information so that clients can make informed decisions on the impact, if any,

a development may have on the value or enjoyment of the property in the future.

Due diligence

As part of your due diligence, ordering a Landmark Planning report demonstrates you have undertaken all practicable steps to reasonably identify information that the client would want to know.
