Dear Sirs,

Ball Clay Search  
**ADDRESS, TOWN, POSTCODE, ETC.**

I write with regards to your request for a Ball Clay Search over the above property.

Following consultation with the relevant bodies, I can confirm that the property in question lies some distance from any known past or present ball clay or china clay mining, and there is no evidence of any activities for the winning and working of these minerals that might affect the land.

We can also confirm that there is no detailed knowledge of any commercial ball clay or china clay deposits in the area that are likely to be of interest in the future.

Should you require further information or assistance, please do not hesitate to contact us.

Yours faithfully,

Freephone 0800 052 0117
